

Harsh Malik

Noida | +91 9953111961
harshmalik2003@gmail.com

Summary

Developer with strong foundations in C++ and web applications. Experienced in building and deploying production-ready projects using MERN stack and C++. Consistently solving 300+ problems on LeetCode and applying problem-solving skills to deliver high-performance, user-focused solutions.

Experience

Optiemus Unmanned Systems

Software Intern | 05/2025 - 07/2025

- Developed real-time computer vision modules using OpenCV and C++ for UAV object detection and tracking systems, processing 1000+ frames per second
- Engineered multithreaded data processing architecture, reducing frame processing latency by 40% and improving system responsiveness

HCLTech

Summer Intern | 06/2024 - 07/2024

- Collaborated with system administrators to debug deployment issues, analyzing log files and system data to identify root causes.
- Gained hands-on experience with enterprise software deployment lifecycle, from packaging to monitoring and maintenance.

Projects

Anomaly Detection using MLOps

- Developed a production-grade anomaly detection pipeline integrating ML models with a complete MLOps workflow for Industrial IoT sensor data.
- Containerized training and inference using Docker and deployed scalable FastAPI services on Kubernetes (Minikube).
- Implemented MLflow for experiment tracking, model versioning, and automated model promotion, ensuring reproducibility and traceability.

Chef Claude

- Developed and deployed a full-stack AI-powered recipe generator using **React.js** for the frontend and **Express.js** for backend API routing.
- Integrated **Hugging Face API** to generate real-time recipe suggestions based on dynamic ingredient inputs.
- Deployed on **Render**, demonstrating skills in API integration and production deployment.

Skills

Programming and Databases: C++, JavaScript, Python, SQL, MongoDB, Excel

Web Technologies: React.js, Node.js, Express.js, HTML5, CSS3

Tools & Platforms: Git, Docker, Deployment (Render)

Education

Jaypee Institute of Information Technology | Noida

BTech (CSE) | 05/2026

- Tata Imagination Challenge, 2025 (semi-finalist)
- Aanvikshiki Business Hackathon by IIM, Nagpur (3rd runner-up)
- Completed Intel AI bootcamp with certification

Bal Bharati Public School | Noida
Secondary & Senior Secondary | 06/2022

- Certified top 0.1% scorer of English Lang. & Lit. by CBSE
- Awarded Best MUN Delegate at DIMUN
